

## High Precision - Current Transformer

### Features:

- ◆ Primary Current Range 10A and 15A
- ◆ Operating Frequency 50 / 60Hz
- ◆ Class 0.2 Accuracy typical
- ◆ Dielectric Withstand Voltage 2.5kVrms
- ◆ Operating temperature range -40°C to +85°C
- ◆ Encapsulated & PCB Mountable
- ◆ All materials are UL approved

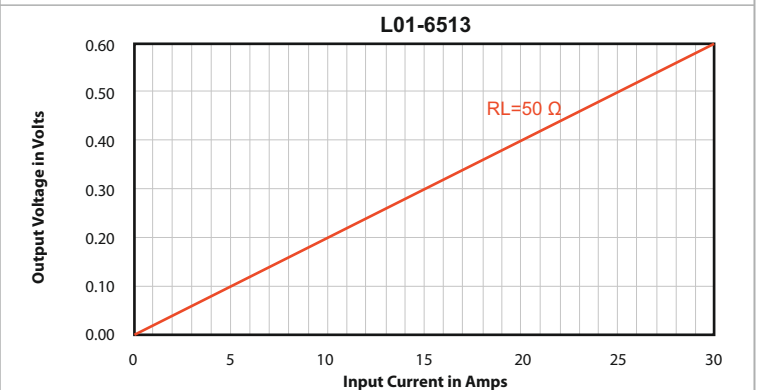

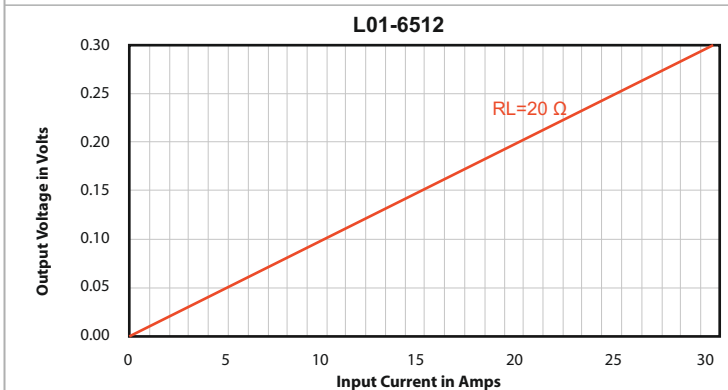

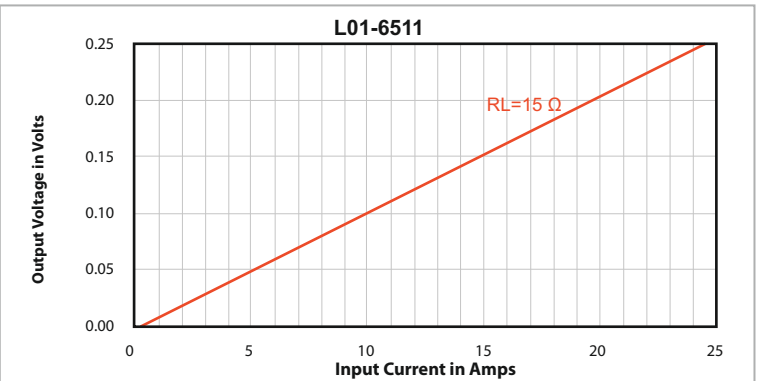

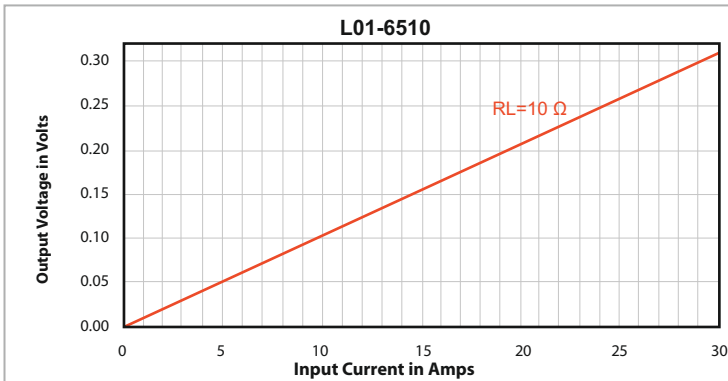

### Mechanical Drawing

All Dimensions are in mm  
Linear dimension tolerance ±0.2mm

### Input Current Vs Output Voltage

Product innovation is a part of continuous development hence specifications are subject to change without notice

**Transforming Power into Quality!**
